Work Experience

AMAC Accessibility Solutions   **Atlanta, GA**
Application Developer II   July 2015 to Present
- Utilized the CakePHP framework, jQuery, and SASS to create a disability management system for a study on access to alternative media formats on student achievement.
- Updated the UI for internal employee portal using Bootstrap.

E-Text Specialist   October 2011 to June 2015
- Created a tool to automate the conversion of DAISY MathML files to multi-page XHTML documents using PHP, XSLT, and jQuery.
- Created a note tracking system using QuickBase and its PHP SDK to aid in file production.
- Used knowledge of accessibility standards to produce and perform quality control on e-text files.
- Developed keyboard macros with AutoHotKey to facilitate faster and more efficient file production.
- Handled the creation and support requests for a disabilities management system built in QuickBase.

Pike Nurseries   **Atlanta, GA**
Cashier   March 2010 to December 2010
- Performed duties as a cashier and within customer support.
- Helped customers with horticultural questions and handled the care of indoor plants and other inventory.
